Scheduling

After the application is completed, please schedule all required examinations with approved paramedical examination facilities. Paramedical facilities complete blood profile, urinalysis and long-form examinations.

Paramedical Facilities

Mutual of Omaha's approved paramedical facilities have blood kits and the expertise to complete our blood profile requirements. All blood specimens must be drawn using Portamedic or APPS blood kits and mailing instructions. One of these paramedical facilities must be used when a blood profile is required or requested. All specimens are sent to the Clinical Reference Laboratory (CRL) for testing.

- Portamedic 1-800-765-1010
- APPS 1-800-635-1677

Blood Profile, Urinalysis and HIV Consent

Mutual of Omaha may require a blood profile or urinalysis. See the Underwriting Requirements Chart for specific guidelines. Laboratory tests may be requested for lesser amounts. An HIV consent form may be required in some states, consent forms will be included in the application packet.

Client Interview (PHI)

A client interview will be required for certain benefit amount/benefit period combinations. They may also be ordered at the underwriter's discretion. The interview should be completed at the time of the application or shortly thereafter. Please call **1-800-775-3000** and follow the prompts to complete a disability interview. The interviews are recorded and generally take only 10 to 20 minutes, depending on the applicant's health history. Clients should be prepared to provide physician and medication information.

Attending Physician's Statements (APS)

In order to render the most favorable decision possible, an APS may be required. The home office will initiate the request by contacting the doctor's office or medical facility in advance to confirm the availability of the medical records, cost and requirements for release. The home office will advise you of our request and periodically follow-up with the medical facility. Timely release of the requested APS depends on the quality of the contact information and the degree of cooperation afforded by the medical facility. The agent and applicant can play a crucial role in securing the APS by contacting the medical facility to reiterate the urgency and significance of obtaining the necessary information.

Notice of Underwriting Action (Pending Report)

Notice of Underwriting Action correspondence is available on SPA to confirm the underwriting requirements that are necessary to underwrite the application.
